

# OpenRemote - Open Source Cloud Platform

## Listing details

Reference Number: RF149680

### Common

Price: \$ 0.00

Country: United States

Description:

OpenRemote is an open source project, started back in 2009, with the ambition to overcome the challenges of integration between many different protocols and solutions available for home automation, and offer visualization tools.

The challenge has only become bigger and expanded beyond home automation into several other application domains, ranging from building integration, to healthcare, hospitality, entertainment, and public spaces. OpenRemote Inc. was created, to enable the sponsorship of the OpenRemote open source project – in the vein of JBoss.

### Features:

Protocol Support

Product Support

OpenRemote Controller

User Application Consoles

OpenRemote Designer

OpenRemote Manager & Beehive Services
