

IoT Tech Expo 2017

Listing details

Reference Number: RF134322

Common

Description:

On November 29th and 30th, the Santa Clara Convention Center hosts the second edition of IoT Tech Expo North America.

The US event is part of a series of IoT Tech Expo events: a Europe edition, IoT Tech Expo Global and this [IoT Tech Expo North America](#).

Just as its other editions, IoT Tech Expo North America 2017 is co-hosted with a conference on blockchain and one on AI by the same organizer in the same venue. The 2017 edition of IoT Tech Expo North America comes with two free and four paying tracks, covering the main IoT evolutions in areas such as IoT development, IoT innovations, Industry 4.0, smart transportation, smart cities, IoT data, IoT security and more. Below are some impressions from this year's other editions.

Event Dates: November 29 – 30 2017

Venue: Santa Clara Convention Center
