

FLiR Dev Kit

Listing details

Reference Number: RF127476

Common

Price: \$ 259.95

Country: United States

Description:

FLiR Dev Kit

The FLiR Dev Kit includes a breakout as well as a Lepton® longwave infrared (LWIR) imager. With this kit you will be able to bring FLiR's thermal imaging reliability and power to your Arduino, Raspberry Pi or any ARM based development tool all in an easy to access breadboard friendly package.

This kit comes in two separate parts and will need to be assembled once received. The Lepton module is extremely sensitive to electrostatic discharge (ESD). When inserting it into the breakout board be sure to use proper personal grounding, such as a grounding wrist strap, to prevent damage the module.
