

Modulo Invention Kit

Listing details

Reference Number: RF201959

Common

Price: \$ 149.95

Country: United States

Description:

Modulo Invention Kit

The Modulo Invention Kit is a massive upgrade from its little sibling, the Gizmo Kit. The Invention Kit includes everything the Gizmo offers, plus additional components for getting started with robotics!

This kit even provides you with a great starting point to begin experimenting with the Particle Photon!
