

Actobotics Kit - ActoBitty 2

Listing details

Reference Number: RF855249

Common

Price: \$ 29.95

Country: United States

Description:

Actobotics Kit - ActoBitty 2

This is the ActoBitty 2 from Actobotics, an easy to assemble starter robotics kit that is perfect for beginning builder. This little kit, once assembled creates a small robotic platform that, with an attached an Arduino, you can start using almost immediately! Inside this kit you will find all the mechanical parts and motors needed to build this little robot platform.

Actobotics is a robotics building system based around extruded aluminum channels, gears, precision shafts, and ball bearings. Thanks to the two standardized hole patterns, nearly all Actobotics components can be intuitively connected together. The wide range of components makes building complex electromechanical prototypes or finished projects a reality.
