Description:

Modulo Gizmo Kit

The Modulo Gizmo Kit is an entry-level kit focused on education and playful exploration. It's a great way to get started with Modulo without breaking the bank.

The Gizmo Kit includes the base to hold and connect up to four Modulo modules, a powerful Arduino-compatible microcontroller, a knob module (rotation encoder, push button, bright RGB LED), an infrared remote transmitter/receiver, a micro servo motor (with included servo horns) and a microUSB cable.

Includes:

- 1x Modulo Base
- 1x Controller Module
- 1x Knob Module
- 1x IR Remote Module
- 1x Micro Servo Motor
- 1x MicroUSB Cable (1.5ft)
