Bosch XDK 110 IoT Cross Domain Development Kit

Listing details

Reference Number: RF366036

Common

Price: $ 241.89
Country: United Kingdom
Description:
Bosch XDK 110 IoT Cross Domain Development Kit

This Cross-Domain Development Kit (XDK) is a prototyping platform for the development of Internet of Things (IoT) applications. The use of state of the art technology and ready to use software packages enables the quick and simple realisation of cases and proof of concepts projects.

Built-In Sensors:

Accelerometer
Gyroscope
Magnetometer
Humidity sensor
Pressure sensor
Temperature sensor
Acoustic sensor
Digital light sensor

Other Main Components:

Bluetooth 4.0 low energy IEEE 802.15.1
Wireless LAN IEEE 802.11b/g/n
32-Bit Microcontroller (ARM Cortex M3), 1MB Flash, 128 kB RAM
Internal Li-Ion rechargeable battery 560 mAh
Integrated antennas

Kit Contents:

XDK110 Development Kit with XDK Gateway extension board for easy access to additional MCU
functionality incl. 10cm connector cable
Micro USB 2.0 connector cable
Mounting plate and screws
Development board in protective housing
Built in Li-Ion rechargeable battery
Breakout-board for easy access to additional MCA functionality
Includes connector and USB cable
Debug and extension port
Status LEDs
Powerful software development kit
Getting started guide access
