Reference Number: RF195476

Common

Price: \$ 340.02

Country: United Kingdom

Description:

Makeblock 90014 XY Plotter Robot Kit V2.0

The XY-plotter from Makeblock turns digital artwork into line drawings on a flat surface, maybe a drawing of your favourite superhero or the plans for your next house? It's also a great introduction to the world of digital machines as most CNC machines and 3D printers have an XY mechanism inside them.

Features:

Produce digital artwork, from cartoons to engineering drawings

mDraw is compatible with SVG and DXF vector file formats

mDraw is compatible with BMP, JPG, and PNG bitmap file formats

Dimensions 620 x 620 x 140mm

Working area 310 x 390mm

Weight 4.3kg
