

Netduino 3 Wi-Fi Development Board

Listing details

Reference Number: RF184963

Common

Price: \$ 69.95
Country: United States
Description:

Netduino 3 Wi-Fi Development Board

Netduino 3 Wi-Fi includes all hardware features of the Netduino 3, plus MicroSD storage capabilities and Wi-Fi (with SSL/TLS) for fast integrated wireless networking.

Product features

Processor: 168MHz Cortex-M4 MCU; 2MB dual-bank flash; 256KB RAM.

Standard I/O: 22 GPIOs combined with SPI, I2C, 4 UARTs (1 RTS/CTS), 6 PWM channels and 6 12-bit ADC channels.

Advanced I/O: 802.11b/g/n (Wi-Fi) with SSL/TLS. MicroSD storage. 3 GoBus 2.0 ports for plug-and-play components.

MicroUSB cable and GoBus cable included. Design files and source code are included.

.NET Micro Framework combines the ease of high-level coding and the raw features of microcontrollers.
