

ST B-L072Z-LRWAN1 Discovery Kit LoRa® STM32L072CZ ARM Cortex M0

Listing details

Reference Number: RF113662

Common

Price: \$ 54.00

Country: United Kingdom

Description:

ST B-L072Z-LRWAN1 Discovery Kit LoRa® STM32L072CZ ARM Cortex M0

The LoRa Discovery kit is an excellent development tool for learning and for developing solutions based on LoRa and FSK/OOK technologies.

The kit features the CMWX1ZZABZ-091 all-in-one open module, powered by the STM32L072CZ ARM Cortex M0 microcontroller and an SX1276 transceiver.

Features

ARM Cortex MCU

On-board ST-LINK/V2-1

ADC and DAC

USB, UART, I2C, and SPI

Demonstration software pre-loaded

LoRa , FSK, GFSK, MSK, GMSK and OOK

LoRaWANstack is certified class A and C compliant

Selectable output power

High sensitivity

High dynamic range

50Ω SMA RF antenna
