

Visible Things Industrial IoT Starter Kit

Listing details

Reference Number: RF29125

Common

Price: \$ 389.00
Country: United States
Description:
Visible Things Industrial IoT Starter Kit

Manufacturer Part #: VT-SK-002-A01

Alternate Part #: VT-SK-002-A01

Details:

Visible Things simplifies the complexity of secure edge to enterprise IoT technology. It delivers a complete evaluation and reference platform to connect smart devices right through to the cloud and enterprise software.

Avnet Silica supports an ever increasing range of sensors, connectivity, gateway and security technologies, together with cloud, analytics, mobile and enterprise integration services.

Key Features

- Sensor to server security layer on top of network security
- Quick evaluation of end application
- Highest degree of flexibility
- Reduces development time significantly - time saving
- Optimised power consumption
- Integrated and tested communication path from Edge to Enterprise
- Cloud ready
