Common

Description:

Internet of Things Applications Europe - April 11-12 2018

Internet of Things Europe is collocated with the Wearable Europe and Sensors Europe events, and a ticket to any conference grants attendees access to the others. This event addresses real business opportunities for the IoT, not hype. Business models, case studies, opportunities, and profitability are all covered. It features specific market verticals, in addition to emerging technologies.

Who should attend: IoT developers, IT pros, and CxOs

Date: April 11-12 2018

Location: Estrel Convention Center, Berlin, Germany [Map](#)

Cost: Ranges from €99 for an exhibition pass to packages as high as €2,995.
