

IoT Vertical and Topical Summit for Agriculture

Listing details

Reference Number: RF798070

Common

Description:

We are excited to invite you to join the **IEEE IoT Vertical and Topical Summit on Agriculture** at Borgo San Luigi in **Monteriggioni (Siena) Tuscany, Italy 8-9 May 2018**.

Each IEEE IoT Summit brings together experts and leaders from all over the world to address the implementation of IoT solutions in a local setting. One of the industries important to Italy and the Region of Tuscany is **Agriculture** and is the focus Vertical for the event. The objective of the Summit is to launch actions that will lead to the nurturing, and maturing of IoT solutions and deployments that have significant near and long-term benefits for society. Hence, the theme we have chosen for the Summit is **“The Digital Revolution – Farming 4.0!”**

Summit Highlights

- The Summit features two action packed days devoted to the agricultural life cycle – from growth, to processing, to distribution, retailing, and consumption of food products.
- Plenary Presentations and overviews of IoT and underlying technologies from outstanding and leading experts and practitioners
- Panels and Working Groups
- Technical Papers
- Demonstrations and exhibits
- A grand setting in the Tuscan countryside with exceptional hospitality, with receptions and meals based on local cuisine and traditions.
- Companions Program during the Summit
- Cultural and Tourist Tours before and after the Summit
