

Autonomous Vehicles Asia Summit 2018

Listing details

Reference Number: RF160731

Common

Description:

Autonomous vehicles could make its commercial debut in Asia as early as 2018. It is a one-stop, timely conference that gathers key stakeholders determining the implementation of Autonomous Vehicles (AVs), including regional regulators, government stakeholders, car manufacturers, research institutes, ride-sharing companies, technology companies, insurance and cybersecurity experts.

Key topics of discussion will include the regulation, infrastructure, implementation and technical issues pertaining to autonomous vehicles.

Event Date : 30 January 2018 - 31 January 2018
