1 / 2

Listing details

Reference Number: RF155315

Common

Description:
Tradefair is the UK agent for The Internet of Things Expo.

ioTx, powered by GITEX Technology, is a must-attend event for anyone looking to develop their brand visibility amongst influential buyers and procurement specialists for some of the world's biggest companies.

The event offers a deeper understanding of the connections to security, data and enterprise infrastructure as well as how it applies across industries. It is a grand showcase of innovative technologies to thousands of the most important senior managers and buyers from across the MENASA region.

Sectors:

IoT Blueprint
Building an IoT ecosystem

Connecting the unconnected
Waking up 'ordinary devices'

Wearables
How will you connect with IoT?

Disrupting Hardwares
From robots to smart cards

Consumer Behaviour
Reducing fear, increasing familiarity

Mitigating Pervasive Risks
Reducing the internet of vulnerabilities

Big Data
Solutions for Building Next Generation Business

The show in numbers:

6000+ visitors
500+ delegates
50+ speakers
250 exhibitors & sponsors

Tradefair can book you premium space at the event and Creative Forum, our event management partner offers a host of additional services for companies exhibiting; providing pop-up stands, custom stand design and build, and management of any additional events you plan on organising around the exhibition.
