

Gartner Catalyst, Cloud & IoT Conference, San Diego - August 20-23, 2018

Listing details

Reference Number: RF155365

Common

Description:

This conference covers big data innovation, cloud computing, edge computing, IoT, analytics, business intelligence, and DevOps. It aims to help you create a blueprint for project planning and implementation of these technologies, offering a high-level business view on IoT.

Reasons to attend: If you're a Gartner Research client, this is a good time to learn more and spend more time with the analysts, as well as compare IoT notes with other Gartner clients.

Date: August 20-23, 2018

Venue:

Manchester Grand Hyatt San Diego
One Market Place
San Diego, CA 92101
