
THE INDUSTRIAL IOT STRATEGIES SUMMIT, 13 March 2019, Altis Grand Hotel, R. Castilho 11, Lisbon

Listing details

Reference Number: RF646856

Common

Description:

IIOT – The Industrial Internet – is redefining the industrial landscape, providing dramatic productivity and efficiency improvements throughout the production and distribution process. Estimates for the economic impact are off the scale, but as always there will be winners and losers. What are the strategies you need to deploy now to ensure you benefit from the transformational changes taking place with Industry 4.0?
