

SIDO : IOT, AI, ROBOTICS, 10 April 2019, 50 Quai Charles de Gaulle, Lyon

Listing details

Reference Number: RF115123

Common

Description:

SIDO is Europe's biggest B-to-B showroom dedicated to IoT for strategy, R&D, innovation and marketing decision-makers, as well as for in-the-field professionals. For the past 4 years, SIDO has been helping to shape the European IoT sector and enabling companies & organizations to both identify new growth drivers and re-invent their business models by incorporating IoT. IoT is the key part of our DNA. SIDO is bringing down the barriers between technologies and for its 5th edition, announces a unique forum in Europe combining IoT, AI & Robotics! Next edition will held on 10 & 11 April 2019 in Lyon, France.

2 days of FREE ACCESS for all professionals to: conferences + showroom + solutions + networking opportunities. It also includes a full program of HOW TO conferences: Moving from 'Why?' to 'How?' and 'With whom?' where leading experts from around the world take center stage and share best practices/use cases.
