
Tokenized Assets New York - 12 May 2019 - 12 May 2019 -Westin Times Square, 270 West 43rd, New York

Listing details

Reference Number: RF101105

Common

Description:

This conference provides comprehensive insights on applying blockchain technology to the entire process of tokenizing a real-world asset and the creation of a security token. Tokenizing assets means lowering costs for issuers, but also improving transparency, efficiency and liquidity of real-world assets. The tokenization of real assets democratizes access to new investment opportunities and allows for fractional liquidation and ease of exchange with other investors.

when: 12 May 2019 - 12 May 2019
