Description:

To kickstart our activities in Germany, LongHash hosted a series of events in Berlin during October 2018, focusing on the crypto and blockchain community. We are now happy to bring the LongHash CryptoCon Vol.2, a new series of events designed to spark in-depth discussion on blockchain technology as well as cooperation between East and West.

The events are open to all kinds of blockchain enthusiasts, where the goal is to encourage brilliant minds from Europe and Asia to share knowledge and make a positive impact on blockchain ecosystem.

The CryptoCon will be hosted at the betahaus | Neukölln in Berlin from the 17th to 19th May, and divided in two parts: an afternoon conference called Hash Talk followed by a two-day hackathon for 100 hackers. All the events will be attended by regulators, developers, blockchain entrepreneurs, VCs, funds, exchanges and crypto enthusiasts.
