

Security Tokens Realised, 17 Jun 2019 - 18 Jun 2019, Hong Kong

Listing details

Reference Number: RF823566

Common

Description:

Digitization along with the blockchain are now being adopted by the traditional financial services industry and will create opportunities for many and radically disrupt others. With all the world's major stock exchanges and banks along with new entrants and national regulators positioning to take the lead.

This event is part of our innovative global series of high level events designed to bring together industry leaders with total focus on the realisation of the security token ecosystem.

We will be focusing on opportunities in traditional securities, alternative assets and funds.

Bringing together, Fintech, Blockchain, Investment Banking and the wider ecosystem.
