Description:

At Connected Customer 2019, we've ripped up the rule book on what customer conferences should be. When Amazon revolutionised e-commerce, they were thinking about the next thirty years of business, not tomorrow's problems – so why should you?

We've built an agenda alongside the change-makers who've disrupted their industries, and the organisations who've forged new paths in struggling sectors. With 400+ attendees from 230+ of the world's biggest, most innovative brands – get your ticket and join the customer revolution.
