

Digital Asset Mananagement Europe 2019, 27 Jun 2019, Amba Hotel Marble Arch, Amba Hotel Marble Arch

Listing details

Reference Number: RF163790

Common

Description:

The growth of digital assets has been phenomenal and the pace of growth AND the importance of managing and monetising those assets is increasing with each passing month. Over the past 17 years at DAM Europe we've seen it all – from slow incremental change all the way to rapid, disruptive, revolutionary change. We've seen it, discussed it, explored its implications and presented opinions on what to do as a consequence.

DAM Europe 2019 will be no different. As Europe's largest conference dedicated to Digital Asset Management, we provide a unique environment to exchange knowledge, experiences and build long lasting professional networks. We examine through real world case studies, interactive panels, workshops, roundtables and tutorials, the latest thinking and new developments in the world of DAM - all from the user's perspective.

Few businesses remain untouched – from FMCGs, media, leisure and retail, to healthcare, education, cultural heritage and government. Whether you are installing your first system, an early stage user or a mature practitioner determined not to overlook the most up-to-date innovations there is knowledge here and insights aplenty.

when: 27 Jun 2019 - 28 Jun 2019

where: Amba Hotel Marble Arch, London, UK
