Description:

Welcome to Tokyo Financial Information & Technology Summit, the only event in Japan dedicated to IT, data, and operations executives from financial institutions.

Japan's financial market is undergoing rapid change, led by pressures to reduce costs and improve speed, the emergence of new technologies, and changing regulatory requirements. It is of vital importance for IT and data practitioners to stay abreast of the latest tools and technological innovation to optimize their business operations across front, middle and back offices, while stay compliant to the evolving global and local regulatory environment.
