5TH ANNUAL IOT IN OIL & GAS, September 16th - 17th, Houston, TX2019,

Listing details

Reference Number:	RF172112

Common

Description:

The IoT in Oil & Gas 2019 Conference will focus on helping operators drive down costs and increase efficiencies.

Energy Conference Network's IoT in Oil & Gas Conference is the world's largest focused IoT in oil and gas event. There were over 600 attendees and 60 sponsors at our 2018 event.

Over the past four years, thousands of oil and gas IT and OT leaders have met with the world's leading solution providers to discuss how IoT technology can assist them in surviving and thriving in the sustained low oil price environment.
