

## Global Blockchain Forum 2019 - The Next Wave, 16 Aug 2019 - 16 Aug 2019, Hong Kong

### Listing details

Reference Number: RF467473

#### Common

##### Description:

Our aim is to educate and involve the ecosystem and creating collaboration opportunities about the latest trends. With the lineup of industry experts, we bring together perspectives across different industries, delve on the latest happenings, and discuss used cases. We have created an ideal platform for practitioners and industry experts to meet, exchange ideas and collaborate.

FinTech is another name for staying head through rapid development and innovation.

In today's world, it is impossible to discuss Fintech without the mention of blockchain and cryptocurrencies. The advent of Blockchain and ICOs, have paved new paths for disruptive and innovative businesses.

This new tech is rapidly increasing its forte in the Fintech space and is giving birth to new opportunities; but not without its own cost, the cost of being misled by some Blockchain based ICOs and start – ups.

With so much happening in today's fintech environment, it becomes increasingly important to stay abreast with the latest happenings.

This conference aims at presenting the latest up-to-date topics; by lining up able bitcoin, cryptocurrency and fintech experts; who would share their vision; knowledge and key insights. The forum would discuss the opportunities and challenges spurring this new innovation.
