Common

Description:

The advent of FinTech innovation, NPP and Open Banking sees the payments & cards industry entering a new era of innovation with the customer at the centre – thriving in this environment though means traditional partnerships, architectures, business models and technologies no longer apply.

With that in mind, the 8th Payments Innovation Summit returns this year to help you stay at the cutting edge by focusing on case studies around:

- Re-architecting your internal processes and technologies to enable rapid innovation through ecosystem collaboration
- Touch-point innovation through new business models, loyalty schemes and digital experiences
- Blending blockchain and omni-channel solutions to expand revenue markets and opportunities without compromising on security
