

World Digital Mining Summit -2019,08 Oct 2019 - 10 Oct 2019, Frankfurt, Germany

Listing details

Reference Number: RF190105

Common

Description:

A two-day mining summit will focus on delivering the latest industry insight, high-class networking, and knowledge exchange on cryptocurrency mining.

Started in 2018, the WDMS is back to discuss ideas on the future of digital mining, blockchain, and more. The WDMS was the first and foremost meet up designed by Bitmain that brought global miners, entrepreneurs, and fellow enthusiasts together all in one place. This global mining summit showcased the leading minds and decision makers, which drove and pushed the crypto mining industry into the future.
