Job Description:

### Job description

Title - **Cloud Engineer**

Experience - **10 to 12 years**

Location - **Hyderabad (Onsite for 6 months in Japan initially)**

Client: **Daikin Air-conditioning India Pvt Ltd.**

Mode of Hire: **Permanent**

**Job Description:**

- **Role Description:**

- Provide strategic IT decisions that enhance the client's business.
- Experience designing and implementing AWS and related technologies.
- Lead AWS engagements including AWS advisory/consulting, migrations, application transformation and managed services.
- Architect IT solutions and coordinate development of SW and HW prototypes for corresponding Proof of Concept (POC).
- He/She will have a strong technical background and will work with external agencies/partners to orchestrate the commercial release in collaboration with the business unit.
- Architect end-to-end IoT solutions by collaborating with partners and vendors.
- Contribute and review solution design: ensure innovation, business requirements are met, and that proposed solutions are implemented.
