Description:

NEXT BLOCK ASIA 2.0 Introduces GURUS AWARDS to Recognize and Reward Industry Influencers

The NEXT BLOCK Conference prides itself on recognizing and promoting innovation, especially in the fintech and crypto industry, and after six successful conferences in various countries, NEXT BLOCK is proud to introduce GURUS AWARDS, which will debut this year in the upcoming NEXT BLOCK ASIA 2.0 event, scheduled for December 2019 in Bangkok, Thailand.

Organized in collaboration with Cryptovest and WebCelebs, the GURUS AWARDS will recognize the best services and companies in the fintech space as well as the top Influencers. Our aim is to highlight and appreciate industry participants and stakeholders who have had the maximum impact in growing the space and making blockchain & crypto, as well as other fintech solutions, more accessible to the masses.

There are various nominations in each of the two blocks (services/companies and individuals), and NEXT BLOCK's management is currently reviewing and shortlisting nominees for each category.

All shortlisted nominees will also automatically run for the "Popular Choice Award" Nomination that will be awarded to the nominee with the highest number of votes (likes).
