Common

Description:

For the first time ever, the top tech minds and companies will gather in Calgary for a global conversation on the future of IoT. Walk the exhibition floor and interact with the latest innovations and applications in IoT technology for Canada's top industry sectors including Smart Cities, Smart Agriculture, Smart Medical, Smart Energy, and more. Take part in the IoT North Conference and learn from subject matter experts on issues such as business transformation, cyber security, data analytics, and more. And join us for many of the great networking events that will be happening around the City of Calgary.
