

World Blockchain Conclave, Jun 18 - 19, 08:30 AM, Bangalore

Listing details

Reference Number: RF323388

Common

Description:

Blockchain technology is starting to encourage a direct value exchange over the internet. It is slowly moving towards mainstream adoption, and removing the friction in the exchange of value over the internet. It is fast approaching an inflection point where enterprise and greater mainstream adoption will ensue. As a result of the considerable structural advantages blockchain technology is expected to have significant impact on industries including payments, finance, insurance, energy, IoT, exchanges, music and many more. This track analyses just these impacts looking at various industries and the challenges and opportunities that blockchain will present to them. The conference sessions and the leading experts from the blockchain space will put a spotlight on what needs to be understood and how you can make profits in future.

World Enterprise Blockchain Conclave will explore the industries that are set to be disrupted the most by this new technology. It connects global blockchain gurus and technology players in this space including emerging startups with regional businesses, governments, and IT leaders from across key industry verticals. Come learn from the best in the space at World Enterprise Blockchain Conclave!
