

## FREE LIVE WEBINAR | UK5G PANEL: 5G FOR CREATIVE INDUSTRIES, 3 June 2020

### Listing details

Reference Number: RF161179

#### Common

Description:

The high-bandwidth low-latency technologies promised by 5G are likely to radically disrupt the Creative Industries. Across TV, film, music, advertising, theatre, the arts and digital creative industries, the effects will affect the production, distribution and consumption models as well as the content that is made.

**The UK5G Creative Industries Working Group will discuss the trends and activities enabled by 5G in this exciting fast growing and powerful sector.**

**Here's what you will learn from the webinar:**

1. How 5G is radically disrupting creative industries.
2. A closer look at effects on the production, distribution and consumption models, as well as content that is made.
3. The predicted trends and activities that will change the way creative industries are developing, including TV, film, music, advertising, theatre, the arts and digital creative areas.
