Job Description:

Responsibilities

You will lead a Centre of Excellence (COE) for Digital Technology and Analytics using your combined strategic, operations and management experience with technical know-how to meet the needs across the value chain and deliver the Transform agenda aligned to business objectives of Microsoft Azure Supply Chain.

Specifically

- Partner with senior executives in supply chain and other functions to lead top priority initiatives. Utilize cross-functional knowledge and partnerships to understand, synthesize, and communicate trends, perspectives, and issues that drive meaningful impact to the business
- Lead a highly skilled team to architect and design the next generation Digital platform for Microsoft Supply Chain.
