

SLN-RPK-NODE - NXP Rapid IoT Prototyping Kit

Listing details

Reference Number: RF187447

Common

Price: Rs 6,044.97

Country: India

Description:

Key Features - Microcontroller - Kinetis K64 MCU based on Arm Cortex-M4 Corei - OS/Android mobile apps and IoT Cloud connect platforms - Compatible with NXP IoT Modular Gateway - Expandable to most IoT end-node use cases with 400+ Click boards - Rapid IoT Studio IDEMultiple sensors (Gyroscope, Acc/Mag., Barometer/Temp., Air Quality, Ambient light and capacitive touch)KW41Z Wireless MCU (Bluetooth Low Energy, Thread, Zigbee)NT3H2211 NFC Forum Type 2 Tag - A1006 Secure Authentication & anti-counterfeit ICAutomatic source code & project generation for MCUXpresso IDE/SDKRapid IoT integrates 11 NXP devices (microcontroller, low-power connectivity, sensors, NFC, secure element, power management, interface) in a small form-factor hardware design - It combines software enablement
